Terms and Conditions

Objective:

- To provide young tree seedlings for large plantings in an area that will produce environmental benefits.
- SLWCD recognizes the environmental benefits that trees can provide, but that larger tree planting projects can be expensive. SLWCD will provide young tree seedlings as per the cost schedule in application for community trees; we are able to obtain cost savings by buying in bulk.
- Landowner is responsible for preparing the site, planting the trees, and all maintenance of trees and site.

General Information:

- Application deadline is February 1st, 2019, with pick-up of the trees for planting in the spring.
- Full payment must accompany the application. Cash or cheque is accepted.
- No change in orders or refunds are considered once the order has been placed by the SLWCD with our tree supplier.
- Tree seedlings are expected to arrive between May 1 May 15. Seedling pickup dates will be determined by the SLWCD and all applicants will be notified.
- All seedlings/cuttings must be picked up at the SLWCD garage (559, 4th Avenue North of Swan River)
- Any seedling purchased but not picked up on the pickup dates, will revert to property of the SLWCD unless prior arrangements have been made. No refunds will be issued.
- SLWCD does not provide warranty stock.
- Due to the nature of the nursery business there may be instances where the SLWCD is unable to supply the
 order requested. In these instances, the purchaser can either take a substitution of stock of equal value or
 refund. Additionally, the SLWCD is not liable for any direct or indirect, special incidental or consequential
 damages incurred or claimed by the purchaser.
- Applicant will indemnify and save harmless the SLWCD, their agents, engineers, servants and/or employees from any liability that may result from this project.
- Tree seedlings are usually 6-24 inches with bare root in height at time of delivery, depending on species.
- SLWCD reserves the right for reasonable access to the project site for inspection and to promote the program.
- Machines for tree planting and plastic mulch application are available for rental.

For assistance with planning and design of your shelterbelt and tree locations, please visit <u>AGRICULTURE AND AGRI</u> FOOD CANADA SHELTERBELT PLANNING AND <u>ESTABLISHMENT</u> online.
